## Unit I — Biomedical Research

	<b>Contents</b>	<b>Activity Type</b>	<b>Page</b>
<b>Unit I-Chapter 1</b>	<b>What is Science?</b>		
	What is Science?	Teacher’s Notes	1.1
	What is Science?	Reference	1.3
	Great “Truths”	Handout	1.7
	What is a Scientist?	Lesson Plan	1.9
	Super Scientists	Lesson Plan	1.10
	Some Famous Biological Scientists, Their Discoveries and Trends	Handouts	1.11
	How Observant are You?	Lesson Plan	1.13
	Think Creatively!	Lesson Plan	1.14
	Who Weaves the Fabric of Science?	Lesson Plan	1.15
	<b>Unit I-Chapter 2</b>	<b>What is Biomedical Research?</b>	
What is Biomedical Research?		Teacher’s Notes	2.1
What is Basic Biomedical Research?		Reference	2.2
Basic Heart Facts		Handout	2.4
Heart Throbs		Lesson Plan	2.7
Heart Throbs — Student Worksheet		Lesson Plan	2.8
What is Applied Research?		Reference	2.10
The Heart Stopper		Lesson Plan	2.11
The Heart Stopper Data Table — Student Worksheet		Handout	2.13
What is Clinical Research?		Reference	2.14
<b>Unit I-Chapter 3</b>		<b>Biomedical Research Methods</b>	
	Biomedical Research Methods	Teacher’s Notes	3.1
	Biomedical Research Methods	Handout	3.3
	Chemical, Computer and Mathematical Models	Reference	3.4
	<i>In Vitro</i> Studies	Reference	3.6
	Nonhuman Animal Models	Reference	3.8

# Unit I — Biomedical Research (continued)

Contents	Activity Type	Page
Itchy Sleep Disease	Lesson Plan	3.10
Human Clinical Trials	Reference	3.12
Human Clinical Studies	Lesson Plan	3.14
Clinical Studies	Handout	3.15
Epidemiological Studies	Reference	3.17
How About a Classroom Epidemic?	Lesson Plan	3.19
Cholera and the Scientific Method	Lesson Plan	3.23
“Cholera Victims”	Handout	3.28
“Investigators”	Handout	3.29
Who Can Cure Our Mystery Disease?	Lesson Plan	3.30
You Choose the Test!	Lesson Plan	3.32
You Choose the Test! — Student Worksheet	Handout	3.34

## Unit I-Chapter 4

### Benefits of Biomedical Research

Benefits of Biomedical Research	Teacher’s Notes	4.1
Team IDEA Webbing	Lesson Plan	4.4
IDEA Web — Student Worksheet	Handout	4.7
Did You or Will You Ever?	Lesson Plan/Handout	4.8
What Difference Has Biomedical Research Made to Human Health?	Reference	4.12
Biomedical Research Advances Human Vaccines Developed	Handout	4.21
Through Biomedical Research	Handout	4.22
What a Difference Biomedical Research Makes	Lesson Plan/Handout	4.24
Polio: A Success Story	Reference	4.35
History of Polio	Reference	4.37
AIDS: A Need for Continuing Research	Reference	4.41
The Continuing Search: AIDS	Lesson Plan/Handout	4.44
Biomedical Research Advances That Benefit Animals	Handout	4.52
Biomedical Research for Animal Health	Handout	4.53

# Unit II — Care and Use of Animals in Biomedical Research

	<b>Contents</b>	<b>Activity Type</b>	<b>Page</b>
<b>Unit II-Chapter 1</b>	<b>Student Surveys</b>		
	Student Surveys	Teacher’s Notes	1.1
	Pre-Survey: The Use of Animals in Biomedical Research	Lesson Plan	1.2
	Pre-Survey: The Use of Animals in Biomedical Research — Student Worksheet	Handout	1.3
	Student Attitude Survey	Lesson Plan/Handout	1.4
<b>Unit II-Chapter 2</b>	<b>Why Use Animals?</b>		
	Why Use Animals?	Teacher’s Notes	2.1
	Why Use Animals?	Reference	2.2
	Most Commonly Used Animal Models	Reference	2.4
	Animals Studied for Their Unique Characteristics	Reference	2.5
<b>Unit II-Chapter 3</b>	<b>Advances Based on Animal Research</b>		
	Advances Based on Animal Research	Teacher’s Notes	3.1
	Research Animals Used to Make Some Major Medical Advances	Handout	3.2
	Without Animal Research...	Reference	3.3
	Research Partners	Reference	3.5
	Milestones in Biomedical Research Benefiting Humans and Animals	Handout	3.10
	Human and Animal Health Have Come a Long Way	Lesson Plan	3.14
<b>Unit II-Chapter 4</b>	<b>Number and Species of Animals Used</b>		
	Number and Species of Animals Used	Teacher’s Notes	4.1
	Number and Kinds of Animals Used in Biomedical Research	Reference	4.2
	What Kinds of Animals are Used for Research?	Handout	4.5
	Become an Expert	Lesson Plan	4.6

## Unit II — Care and Use of Animals in Biomedical Research (continued)

	Contents	Activity Type	Page
Unit II-Chapter 5	<b>Care of Research Animals</b>		
	Care of Research Animals	Teacher’s Notes	5.1
	Caring for Research Animals	Handout	5.2
	Laws, Regulations and Guidelines		
	Governing Animal Research	Reference	5.4
	Responsibilities of an Animal Care and Use Committee	Handout	5.8
	Institutional Animal Care and Use Committee	Lesson Plan	5.10
	IACUC Research Proposals for Review	Handout	5.12
	IACUC Research Proposals for Review — Teacher’s Guide	Lesson Plan	5.14

## Unit III — Challenges to Biomedical Research

	Contents	Activity Type	Page
Unit III-Chapter 1	<b>Critical Thinking</b>		
	Critical Thinking	Teacher’s Notes	1.1
	What Do You Believe?	Lesson Plan/Handout	1.3
	What’s Fact, What’s Opinion?	Lesson Plan	1.8
	Biomedical Research and the Use of Animals: Fact vs. Myth	Lesson Plan	1.10
	Sample Headlines	Handout	1.13
	The Role of Animals in Society	Lesson Plan	1.14
	Are You Affected?	Lesson Plan	1.16

Unit III-Chapter 2	<b>Animal Research: Issues and Answers</b>		
	Animal Research: Issues and Answers	Teacher’s Notes	2.1
	Animal Research vs. Animal Rights	Reference	2.2
	Issues and Answers	Reference	2.11
	Science and Self-Doubt	Reference	2.24
	Public Opinion Poll: Americans Favor Medical Testing on Animals, Animal Fur Clothing	Reference	2.34
	Case Studies in Bioethics: Animal Research vs. Animal Rights	Lesson Plan/Handout	2.35

## Unit III — Challenges to Biomedical Research (continued)

	<b>Contents</b>	<b>Activity Type</b>	<b>Page</b>	
Unit III-Chapter 3	<b>Transgenic Animals</b>			
	Transgenic Animals	Teacher's Notes	3.1	
	Transgenic Animals	Reference	3.2	
Unit III-Chapter 4	<b>Therapeutic vs. Reproductive Cloning: Scientific Realities, Public Controversy</b>			
	Therapeutic vs. Reproductive Cloning: Scientific Realities, Public Controversy	Teacher's Notes	4.1	
	Therapeutic vs. Reproductive Cloning: Scientific Realities, Public Controversy	Reference	4.2	
	Bioethical Debate	Lesson Plan	4.10	
	A Forum on Human Cloning	Handout	4.11	
Unit IV-Chapter 1	<b>Unit IV — Other Issues in Science</b>			
	<b>Careers in the Biosciences</b>			
	Careers in the Biosciences	Teacher's Notes	1.1	
	Becoming a Bioscientist	Reference	1.3	
	Curiosity is the Key to Discovery	Lesson Plan/Handout	1.10	
	Bioscience Careers	Reference	1.13	
	Job Hunting in the Biosciences	Lesson Plan	1.16	
	Resources	Reference	1.17	
	Unit IV-Chapter 2	<b>Genetics Primer</b>		
		Genetics Primer	Teacher's Notes	2.1
It's All in the Genes		Handout	2.2	
Mendel's Rules — Dominant and Recessive		Lesson Plan/Handout	2.15	
Extracting DNA		Lesson Plan/Handout	2.17	
Resources		Reference	2.20	

## **Unit IV — Other Issues in Science (continued)**

### **Unit IV-Chapter 3**

### **Nanobiotechnology**

<b>Contents</b>	<b>Activity Type</b>	<b>Page</b>
Nanobiotechnology	Teacher's Notes	3.1
Nanobiotechnology	Reference	3.4
How Big or is it How Small?	Lesson Plan/Handout	3.17
Tools and Techniques for the Nanoworld	Lesson Plan/Handout	3.28
Nanomanufacturing	Lesson Plan/Handout	3.35
The Ethics of Nanotechnology	Lesson Plan/Handout	3.41
Nanotechnology Reading	Lesson Plan/Handout	3.47

### **Unit IV-Chapter 4**

### **Regenerative Medicine**

<b>Contents</b>	<b>Activity Type</b>	<b>Page</b>
Regenerative Medicine	Teacher's Notes	4.1
Regenerative Medicine	Reference	4.5
Discover the Scaffolding of Tissue	Lesson Plan/Handout	4.18
Building Better Tissue	Lesson Plan/Handout	4.24
Stem Cells Are All the Same ... Aren't They?	Lesson Plan/Handout	4.31
Regenerative Medicine: Changing Life	Lesson Plan/Handout	4.41

### **Unit IV-Chapter 5**

### **New Technologies in Vaccines**

<b>Contents</b>	<b>Activity Type</b>	<b>Page</b>
New Technologies in Vaccines	Teacher's Notes	5.1
New Technologies in Vaccines	Reference	5.6
Why Vaccines?	Lesson Plan/Handout	5.22
Population Changes	Lesson Plan/Handout	5.38
Culturing Cells	Lesson Plan/Handout	5.48
Plant-Based Vaccines: Coming to a Disease Near You	Lesson Plan/Handout	5.54

# Additional Resources

<b>Contents</b>	<b>Activity Type</b>	<b>Page</b>
About This Section	Teacher's Notes	1
Further Reading	Reference	2

# Acknowledgments

NCABR extends special thanks to many organizations, past and present, that helped develop this manual and provided assistance. To our colleagues at each of the following organizations, we offer our gratitude:

AALAS Foundation  
Americans for Medical Progress  
American Cancer Society, N.C. Division Inc.  
American Heart Association, N.C. Affiliates Inc.  
American Lung Association of North Carolina  
American Medical Association  
American Society for Microbiology  
Cannon Medical Research Center  
Centers for Disease Control and Prevention  
Charles River Foundation  
CIIT Centers for Health Research  
Connecticut United for Research Excellence Inc.  
Department of Health and Human Services  
Duke University Medical Center  
East Carolina University  
GlaxoSmithKline  
Florida State University  
Foundation for Biomedical Research  
Howard Hughes Medical Institute  
incurably ill for Animal Research  
ManTech Environmental Technology Inc.  
Massachusetts Biotechnology Research Institute  
Massachusetts Society for Medical Research  
National Clearinghouse for Alcohol and Drug Information  
National Institute of Allergy and Infectious Diseases  
National Institute on Drug Abuse  
National Institute of Environmental Health Sciences  
National Institute of Mental Health  
North Carolina Biotechnology Center  
North Carolina Department of Public Instruction  
North Carolina Farm Bureau Federation Inc.  
North Carolina State University College of Veterinary Medicine  
North Carolina Veterinary Medical Association  
Pennsylvania Society for Biomedical Research  
Society of Toxicology  
University of North Carolina at Greensboro  
Wake Forest Baptist Health  
Wisconsin Association for Biomedical Research and Education
