IACUC Nuts and Bolts® is a full-day course that provides attendees with knowledge and information of the key elements of the IACUC relationship to an institution's animal care and use program. After attending this course, attendees will understand: the key elements of an effective IACUC program, the primary functions of the IACUC including protocol review, how to conduct semiannual inspections and program review, how to review animal welfare concerns, and the reporting responsibilities of the IACUC. In addition, faculty will describe the IACUC's role in overseeing post approval monitoring and the institution's training program for animal users.

This program is designed for IACUC members, IACUC administrators and support staff, institutional officials, and training and compliance personnel.
