

CONFESSIONS OF A RESEARCH COMPLIANCE OFFICER: LESSONS LEARNED, THE HARD WAY

JEFF SEO, JD

Assistant Vice Provost for Research Compliance
Northeastern University

Join us for an intimate, humor-filled session based on real and fictitious case studies. Try to predict which ones are based on true events from those that are fictitious. In doing so, we will cover a number of lessons learned in sponsored research compliance areas from which we can all relate.

Learning Objectives:

- Identify common themes among recent audit and enforcement actions
- Conceptualize corrective action plans to mitigate non-compliance exposure
