Expanding Career Opportunities Through Outdoor Experiences at the Durham Public Schools Hub Farm

The Durham Public Schools Hub Farm is a 30-acre property that acts as a model for outdoor learning. One of the main tenets of the Hub Farm is working in collaboration with Career and Technical Education (CTE) to expand student access to realistic outdoor career experiences. During this presentation, speakers will cover relevant programs such as our middle school career exploration field trip, internships and partnerships with CTE classes. Through this collaboration, students are able to gain new experiences and learn from representative experts, while also practicing hands-on skills.

Presentation Target:

High School

Presenter(s):

1. Hannah Ball-Damberg, Farm Educator, Durham Public Schools Hub Farm
2. Erin Carroll, Outdoor Learning Specialist, Durham Public Schools
3. Ashley Meredith, Program Manager, Durham Public Schools Hub Farm
