

**Safe Spaces: Implementing DEI Instructional Strategies in the STEM Classroom**

The events in our nation have brought about increased awareness of race and equity in the United States. As policy changes are developed, it is vitally important to have associated changes in educational spaces. Join our STEM Educators for Equity and Diversity (SEED) Fellows as they discuss how they reshaped their instructional practices and classroom culture to address racial and cultural equity issues in their classrooms, school and organizations.

**Presentation Target:**

Middle School

**Presenter(s):**

1. Michelle Ellis, Lead Facilitator for the SEED Fellows and Science Teacher
