

Bringing STEM to Life in Social Studies

This presentation is designed to first lead the participant through what Grand Challenges and Mini Challenges/Mini-Grands are and how teachers work cooperatively across content areas to develop them. Then attendee will get to experience a challenge creating something using a variety of items to meet the task. Finally, the presentation will wrap up with best practices for using these types of elements in non-science/math content areas.

Presentation Target:

Middle School

Presenter(s):

1. Matthew Lococo, History/ELA/CTE STEM teacher, Greene County Middle School, Greene County Schools
2. Stanley White, Teacher/Grade Level Chair, Greene County
