Illuminating Legacies: Students Design an App to Honor African American Freedom in North Carolina at the North Carolina Freedom Park

Join us for an impactful presentation showcasing a project where students employed project-based learning to design a groundbreaking app supporting the initiatives of the North Carolina Freedom Park in downtown Raleigh. Witness their profound dedication to honoring the struggle for African American freedom in North Carolina through an interactive and educational mobile application. Experience how these students seamlessly blend technology and history, creating a powerful tool that highlights the stories, contributions and resilience of African Americans in North Carolina. Prepare to be moved as they unveil immersive features, including multimedia content, historical narratives and captivating visuals, all aimed at fostering awareness, understanding and unity.

Presentation Target:

High School

Presenter(s):

1. Danielle McCaslin, Project Based Learning Coach - Wake Early College of Information and Biotechnologies (WCPSS)
2. Tonya Hinton, Magnet Coordinator - Wake Early College of Information and Biotechnologies (WCPSS)
