

## TEACHER DELIGHT

**Name of Submitter:** Alisa Wickliff

**Submitter Email:** [abwickli@uncc.edu](mailto:abwickli@uncc.edu)

### **STEM Education: Skills Needed to Become a Leader**

Come learn about the North Carolina Science Leadership Association (NCSLA) Fellows Program. Emerging and more established STEM leaders will benefit from this session. NCSLA Fellows demonstrate innovation and creativity in STEM education and will share leadership activities and examine the importance of building STEM leadership capacity in North Carolina. NCSLA Fellows represent urban, rural, large and small schools and districts so there is great diversity in discussions and problem-solving. Alumni of this dynamic program share their knowledge through professional development work focused on STEM education research and practice. The program is generously funded by the N.C. Science, Mathematics, and Technology Education (SMT) Center and the Burroughs Wellcome Fund (BWF).

### **Presentation Target:**

Other STEM Groups

### **Presenter(s):**

1. Dr. Pat Shane, Professor Emerita, UNC Chapel Hill
2. Alisa Wickliff, Center of STEM Education, UNC Charlotte
3. Dennis Kubasko, Professor, UNC Wilmington
4. Christine Sudzina, Science Teacher, East Chapel Hill High School
