

HANDS-ON MINDS-ON INDUSTRIAL PRACTICES

Name of Submitter: Debra Hall

Submitter Email: debra.hall@dpi.nc.gov

Using Formative Assessment Examples in the Classroom

Formative assessment is a high-leverage practice that can improve learning outcomes for students. During this session we will model how formative assessment supports student understanding of the Disciplinary Core Ideas and the Science & Engineering Practices. We will also share our newest resource on classroom assessment examples.

Presentation Target:

Elementary Audiences

Presenter(s):

1. Debra Hall, K-5 Science Consultant, N.C. Department of Public Instruction
2. Charles Aiken, Section Chief of Mathematics, Science and STEM, N.C. Department of Public Instruction
