

## HANDS-ON MINDS-ON INDUSTRIAL PRACTICES

Name of Submitter: Michelle Benigno

Submitter Email: mtbenign@ncsu.edu

**Presentation Title: The Science House Presents: Using Phenomenal Phenomena**

Join us for the ins and outs of using phenomena in your lessons. We will share tons of resources with information about where to find relevant phenomena, how to use them effectively, and how to create a "need to know" environment to stimulate the anchoring of standards-based content in students' long-term memory. Seamlessly incorporate Science and Engineering Practices. This is appropriate for K-12.

**Presentation Target:**

Middle School

**Presenter(s):**

1. Michelle Taylor, Director of The Mountain Office, The Science House
2. Lenora Crabtree, Instructor, University of North Carolina Charlotte
