Presentation Title: Gizmos and Gadgets

STEM education has been explored through Mini-Challenges, Grand Challenges, and hands-on tasks—but what about the tools that bring it all to life? Join us for an interactive session where we dive into the exciting world of Gizmos and Gadgets that help students develop essential STEM skills while aligning with the Portrait of a Graduate. Discover the innovative ways these tools enhance learning—and even try your hand at designing a Gizmo or Gadget of your own!
