**Presentation Title: Smart Starts: Integrating AI into the Elementary Classroom for Deeper Learning**

Discover how artificial intelligence can enrich elementary instruction and spark student curiosity! This session introduces educators to age-appropriate AI concepts and tools that support inquiry, creativity and personalized learning. Aligned with core content areas, participants will explore practical classroom applications of AI, engage with interactive demos, and leave with ready-to-use strategies and lesson ideas. No coding required — just curiosity and a commitment to innovation!

**Presentation Target:**

Other STEM Groups

**Presenter(s):**

1. Natalie Hulbert, Elementary Computer Science Education Consultant, North Carolina Department of Public Instruction
