Presentation Title: Real Learning in Real Places

Discover how to turn your community into a powerful classroom! In this interactive session, participants will explore the principles of community-connected learning through real-world examples and student-centered strategies. You'll create a personalized community asset map to uncover local people, places, and partnerships that can enrich your curriculum. Walk away with practical tools and inspiring ideas to design immersive learning experiences that connect students with their world—and give learning lasting relevance.
