

## HANDS-ON MINDS-ON INDUSTRIAL PRACTICES

Name of Submitter: Christine Mitchell

Email: [christine.mitchell@wilsonschoolsnc.net](mailto:christine.mitchell@wilsonschoolsnc.net)

**Presentation Title: In our #STEMera: Our Journey Through the STEM School of Distinction Process**

In this interactive session, our team will share our journey through the N.C. STEM School of Distinction process, and how it became the catalyst for lasting change across our campus for STEM integration.

We will share our school's starting point, how we used the five Overarching STEM Principles to guide our strategic planning, and the specific systems and supports we developed to promote STEM and inquiry-based learning.

Attendees will leave with actionable strategies, artifacts usable for their own portfolio, lessons learned, and sample templates that helped establish a cultural shift toward STEM excellence to use in their own schools or districts.

**Presentation Target:**

Elementary School

**Presenter(s):**

1. Christine Mitchell, District STEM Coordinator, Wilson County Schools
2. Casey Wester Wooten, Principal, Wilson County Schools
3. Tobie Vicidomini, Multi-Classroom Leader, Wilson County Schools
