**Presentation Title: Operation Outbreak**

Step into the future of education with *Operation Outbreak*, a high-energy, tech-driven simulation that turns your classroom into the front lines of an infectious disease outbreak. With interactive tools and real-time data, your students won't just learn, they'll live the lessons in a safe environment. Join me to ignite curiosity, build real-world skills, and show the next generation how small actions can change the world.

**Presentation Target:**

Middle School
