

HANDS-ON MINDS-ON INDUSTRIAL PRACTICES

Name of Submitter: Rachael Polmanteer

Submitter Email: rachael@ciblearning.org

Presentation Title: Using the SEPs to Teach Sound, Plants and Soil, and Changing Habitats in the Elementary Classroom

Come learn with us using CIBL's new student activity packs! We will feature our new SAPs created to address N.C. standards on Sound (Gr.2), Plants and Soil (Gr.3), and Changing Habitats (Gr.4). Participate in hands-on activities to learn how these activities build conceptual understanding through use of the SEPS, incorporate literacy, and increase engagement. Attendees also will learn about our online resources, other SAPs, and our Sponsor a Classroom Program.

Presentation Target:

Elementary School

Presenter(s):

1. Rachael Polmanteer, Associate Director, The Center for Inquiry-Based Learning
2. Melaine Rickard, Teacher and Curriculum Support Specialist, The Center for Inquiry-Based Learning
3. Todd Guentensberger, Executive Director, The Center for Inquiry-Based Learning
