

## OUTREACH EXPO

Name of Submitter: Brad Rhew

Submitter Email: btrhew@gmail.com

**Presentation Title: Empowering Science Educators: Building Leadership Through the North Carolina Science Leadership Association Fellows Program**

This poster presentation will highlight how the North Carolina Science Leadership Association (NCSLA) supports the development of emerging science leaders through its prestigious Fellows Program. This fully funded, two-year opportunity empowers educators across North Carolina to enhance their leadership skills and expand their professional networks. Viewers will learn about the program's structure, benefits and impact directly from current and past fellows, who will be present to share personal experiences and leadership journeys. Participants will learn how the NCSLA Fellows Program has transformed educators into influential science leaders and how they can become part of this leadership community.

**Presentation Target:**

All Audiences

**Presenter(s):**

1. Brad Rhew, K-8 Science/STEM Coordinator, Guilford County Schools
2. Alisa Wickliff, Associate Director, Center for STEM Education, University of North Carolina at Charlotte
3. Pat Shane, Professor Emerita, University of North Carolina at Chapel Hill
